Thinking Out Loud

H. M. L.

Notwithstanding gentle hints from the Old Timer to discuss matters nearer home than the cavortings of New Dealers in Washington, D. C. we cannot refrain from calling attention to a recent editorial by David Lawrence. Lawrence in effect charges that the President, who gives the Supreme Court another flagellation because the members are taking a vacation of four months and are leaving matters important to the President undecided in the meantime, has himself been absent from his White House offices 42 per cent of the working days since he was elected. All told he has been gone from his executive chair just 672 days since he first took the oath of office.

But when the Nine Old Men take their annual vacation of four months the President heaps them with golden voiced contumely. Perhaps he thinks that the ordinary citizen has forgotten that Presidential junket to the Hawaiian Islands, from which he returned after 41 days of idyllic life aboard one of Uncle Sam's crack battleships. This 42 per cent of his time spent vacationing, fishing and playing the squire of Hyde Park, is all the more notable because when the President is in Washington (58 per cent of the time the people are paying for) he is in such a heck of hurry to get things done NOW.

The newshawks in Washington are never awed by any President. Usually they knew the President when—. It is not good manners to ask the President annoying questions, nor good policy. Because there is nothing in the Constitution that requires the nation's chief executive to hold press conferences. Anytime he desires he can cut off communication with bumptious and skeptical correspondents. But there is the usual leakage from these conferences with the President, trickles of ribald laughter seeping from the jolly pow-wows, that are indicative of cynical disrespect. This is only a straw in the wind to show the President's star is waning. But he little realizes that he is the chief influence in dimming it.

So far as Presidential vacations are concerned, a great many people, including the writer, are genuinely glad when the President does take a vacation. The country has a breathing spell and wholesale reforms of an idealistic character are postponed for awhile, business perks up, and Congressmen have a chance to apply braces to their jellied spines and weak knees.

We don't complain so much of the general direction we are going as we do of the breakneck speed exercised in getting there. It is as though 125.000,000 people had sat down to a New Deal banquet, costing some fifteen billion borrowed paper dollars, and were served one course after another in rapid succession, with never a quiet interval to let the choice viands be digested. And so when the President goes to South America or the Hawwian islands, or the Supreme Court adjourns for four months, or Congress troops gaily forth to the golf links and spends giddy hours at the nineteenth hole. the whole surfeited country unbuttons its vest and breathes deeply. Indeed if there was only some way we could regurgitate, as pigeons do, we would be almost happy.

We were amused to read J. Pierpont Morgan's comment of tax "avoidance." In forthright fashion he places the blame for this exodus of taxable funds into incorporated yachts and country places, upon the stupidity of Congress in passing such poor tax laws that anyone with money enough to hire a smart lawyer and still beat the tax gatherer, can find the appropriate loop hole. The President on the other hand thunders of unethical practices and excoriates some 150 individuals, perhaps, who legally avoid paying their fair share of government costs. Back of it all is that little gap of $400,000,000 income between what the Treasury department estimated the tax revenue would be and the actual revenue. That over optimistic estimate of new revenue, upset plenty of apple carts. It is all well enough to stop loop holes in tax laws, but it will be difficult to recapture taxes that have already escaped, and even if they were recaptured it would probably prove that they were only small fractions of the $400,000,000 over estimate.

This condition of course is just another demonstration of the old adage, "haste makes waste." Few of the New Deal statutes have been thoroughly and competently studied before enacted. Too much hurry and too little thinking characterize much of the recent legislation. And whenever Roosevelt plans go awry, it is singularly easy to call in a whipping boy, the economic royalist, the bankers, the hostile press, the American bar, or the Supreme Court, and give him another walloping.

CCC ENROLLEES GIVEN POSTS IN FOREST SERVICE

DeWitt Nelson, supervisor of the Tahoe national forest announces the appointment of the following CCC enrollees to the positions on the Tahoe short term protective force.

Henry G. Bucknell, enrollee in Camp Bradley, will be assigned to the Mosquito Ridge lookout under the supervision of District Ranger Charles Beardsley, Foresthill district.

Bucknell was recommended for this position, according to Nelson, by his faithful services at Camp Bradley and also distinguished himself during the Foresthill fire last September by the way he handled a crew under fire.

Bucknell attained a full leader rating at Camp Bradley and had learned all phases of construction work and specialized in tractor driving.

Everett A. Thomas has been assigned as Camptonville patrolman under District Ranger Frank Meggers of the Camptonville district. Thomas served twenty months in Company 3711 which recently moved from Grass Valley Camp to Tahoe-Ukiah, F-315, on the Tahoe-Ukiah highway.

CITIES ADVISED TO SET UP FUND FOR GAS TAX

SACRAMENTO, June 10.—Cities would do well to set up a special fund for moneys received from the Vehicle License Fee (in lieu tax) and to make an accounting of the expenditures according to the requirements of that act, was ruled by U. S. Webb, Attorney General, on a query by Ray Ingels, director of the State Department of Motor Vehicles.

"While not mandatory,' the attorney general held, it would be advisable because, "it seems to me there could be no impropriety in the controller's refusal to pay over to a city its portion of the vehicle license fees until the city has established a special fund therefor."

The Vehicle License Fee Act requires the cities to expend the monies received therefrom for the purposes of law enforcement and the regulation and control and fire protection of highway traffic.

EPISCOPAL MEN'S CLUB TO MEET MONDAY

The Episcopal Men's club will meet at 7:30 Monday evening in the parish hall, Grass Valley. The committee in charge have arranged to have as speaker Dean Harper of Christ Church Cathedral, Sacramento. The dean will present Major Maxwell Kirby of the U. S. Air Force who will tell some of his interesting experiences in the air in France, during the world war. The members and friends of Trinity church are cordially invited to attend as this meeting is open to the ladies as well as the men.

COUNCILORS FOR CAMP FIRE GIRLS TO ARRIVE

Seventeen councilors of the bay district are expected at Oakland Camp Fire Girl lodge on Lake Vera this week end. They will get the camp in shape for the Camp Fire Girl vacations. Miss Gladys Snyder and Miss Gladys Bennyhoff will be in the group.

A group of Sacramento councilors and executives are expected to bring husbands with them to Camp Minaluta on Lake Vera Sunday. After a picnic dinner the camp and grounds will be prepared for the visiting Camp Fire Girls.

Mr. and Mrs. Thomas White spent Wednesday in Reno, Nevada, visiting many old time friends.

BELIEVE IT OR NOT; BUT THIS IS TRUE

Another "believe it or not" fishing yarn drifted into the Nugget office yesterday. The Rev. Charles Washburn carrying on the tradition of St. Peter, the Fisherman, was fishing in Lake Tahoe a week or so ago. Prior to his departure, Bunce Nolan handed him a gold fluted spinner and asked him to try it out. With the Rev. Washburn on this expedition was Capt. Snell, U. S. A., who has been spending his furlough from service in the Hawaiian Islands, in Grass Valley. The two were trolling up and down Emerald Bay when the rector's tackle became wedged in a crevice between rocks on the bottom, perhaps fifty feet deep. Attempts to retrieve the line, to which was attached one large spinner, the smaller gold fluted spinner following and at the very end a fresh minnow threaded on hook, failed and finally he gave it up, yanked and broke the line and outfitted himself with a new set of spinners.

Ten days later Bunce Nolan and friends were fishing in Emerald Bay. During the three or four mile troll Nolan's line caught in a crevice in the fifty foot depth, and Nolan jerked and backed and pulled and finally with one last heave brought up his own spinners and bait and attached to it was the big spinner, his own gold fluted spinner and the hook minus the minnow, which the Rev. Washburn had given up for lost ten days earlier.

MRS. MARGARET GODFREY BORNE TO REST TODAY

Funeral services will be conducted by Rev. H. H. Buckner of the Methodist church of Nevada City, in the Masonic hall at Camptonville at 2 o'clock this afternoon for Mrs. Margaret M. Godfrey who passed away at Camptonville last Wednesday. Born in New Jersey, she came to California when three years of age and spent nearly all of her 86 years of life at Camptonville. Beloved and revered by all her passing will be mourned by many, as she is one of the last pioneers of the little city. Her late husband, Noah Godfrey, passed away several years ago.

She is survived by two sons, and a daughter, Warren Godfrey of Pike City, Fred Godfrey and Miss Roby Godfrey of Camptonville.

Holmes Funeral Home of Nevada City have charge of the funeral.

BISHOP PORTER TO PREACH HERE

The Right Reverend Noel Porter, D. D., Bishop of Sacramento, will administer the rite of confirmation next Sunday morning at the 11 o'clock service in the Trinity Episcopal church.

The public is cordially invited to attend Bishop Porter on each succeeding visit has endeared himself to all who have heard and met him. His sermons have been models both as to the subject matter and excellence and sincerity of delivery. Undoubtedly a large congregation will be on hand to hear and welcome him next Sunday. He will also address the Sunday school at 10:30 a. m.

E. E. MARSHAL CHAIRMAN OF EXECUTIVE COMMITTEE

Harry Poole, chairman of the 4th of July parade committee in Grass Valley and other Grass Valley citizens attended the meeting of the Nevada City Chamber of Commerce meeting Monday night. President Fred E. Conner assured the Grass Valley men that they would have the fullest cooperation of the Nevada City chamber in their celebration and appointed E. E. Marshall chairman of an executive committee to arrange for Nevada City's part in the parade and celebration.

REMINGTON HILL

Six men are employed under the direction of Frank Crampton at the Remington Hill placer mine. They are engaged in repairing the damage done by the winter's heavy snow. One thousand feet of steel flume had its underpinning swept away by avalanches, but this has now been restored and sluicing in a small way has been resumed.

REDUCTION IN SILICOSIS INS. CHARGE COMING

Nevada City Nugget
Nevada City, California.

Gentlemen:

I am happy to advise that the State Rating Bureau will announce shortly a material reduction in silicosis surcharge rates on mining compensation insurance effective June 1. I am unable at this moment to furnish exact amount of reduction but know that it will be a substantial one, and I am sure the mining industry of my district and the state in general will deeply appreciate this information. This is indeed encouraging to those of us who have for the past two years worked with the Insurance Department and the Bureau in an effort to have this charge eliminated from industry.

Sincerely yours,
JERROLD L. SEAWELL.

COMMENCEMENT EXERCISES TAKE PLACE TONIGHT

Fifty three boys and girls, the largest class to graduate in the history of the Nevada City high school will receive diplomas at the Nevada City theatre this evening. Several days of this week have carried some celebration in honor of this big event in the lives of these young people. Baccalaureate services were held in the open court at the high school last Sunday. Wednesday the graduates and faculty enjoyed their senior banquet in the upstairs banquet room in the National Hotel in this city. Bill Bennett president of the class, was master of ceremonies. A splendid commencement program has been prepared for this evening.

SCHOOL HEAD IS ROTARY SPEAKER

Henry R. Spiess, principal of the Grass Valley high school, and Harris Ricksecker, scout executive, were speakers yesterday at the Rotary luncheon.

Ricksecker predicted a larger attendance of Boy Scouts and Camp Fire girls at Camp Pahatsi this year than ever before. During the winter season approximately 350 boys and girls had enjoyed a few days of winter sports on the banks of Lake Kilborn at the camp. Money and help was needed, he said, to repair the damages of winter storms. The camp is located near Soda Springs. Seven boys of the Tahoe Scout region under the leadership of Sam Partridge will this year attend the World Jamboree to open the latter part of July in Holland. A delegation will also go to the National Jamboree at Washington, D. C. The expenses of these boys are being defrayed by their parents. The cost is $180 for the round trip.

Henry Spiess discussed some of the conditions which make schools difficult for teachers and administrators. One of these is the fact that many children go to high school or college with no special goal in mind, take very little interest in their studies, when they do not actually dislike school work. These students would far better be out in the world beginning to earn their living than in school. If they are carried along, without interest in their work, with no vocational aim in sight, very frequently they leave school with no habits of work gained and perhaps a prouounced dispositinon to avoid work. Spiess declared that this is a very serious problem for the people to face and if possible to solve. Vocational shops solve it only in part.

MINER SEEKS DAMAGES

Jim C. Baldwin, a former miner at the Deer Creek Union mine south east of Nevada City, Tuesday filed a $10,000 suit against the Deer Creek Union Mining company for permanent injuries claimed to have been suffered when a bucket cable gave way, fell and broke his left leg. He also asks $1,200 for hospital expenses and for the loss of wages while he was recovering from the injuries.

Idaho-Maryland, In Answer, Denies Labor Board Jurisdiction

The Idaho Maryland Mines Corporation, charged by the International Union of Mine, Mill and Smelter Workers with violation of the Natoinal Labor Relations Act through depriving eighty miners of employment by closing down the old Brunswick Mine recently, yesterday answered the charge by contesting the jurisdiction of the federal board.

The mining company's answer not only questions the jurisdiction of the labor board, but contains a blanket denial that the shutdown was due to the fact the mine's employes had joined the international union, a Committee for Industrial Organization affiliate.

A hearing on the charge has been pending for several weeks and was expected to take place in Nevada City or Grass Valley within the next two weeks.

The answer prepared by Attorney Edgar Zook of San Francisco, counsel for the corporation, asks for dismissal of the complaint on the grounds:

1. Lack of jurisdiction in the matter by the National Labor Relations Board because the gold mined at the Brunswick and other Nevada county properties of the Idaho-Maryland company is intra-state in character and is not in interstate commerce and thereby is not amenable to the provisions of the Wagner Act, which establishes the jurisdiction of the labor relations board.

2. The Idaho Maryland company has in no manner violated any of the provisions of the act.

The answer and petition states specifically the company's contention that the shutdown at the old Brunswick Mine was caused as a part of the company's reorganization of its activities and for practical business reasons "wholly disconnected with any question of labor disputes."

It also sets forth a denial of the charge the shutdown followed a warning to the employees not to join the CIO, denies having issued such a warning and asserts that the men laid off at the Brunswick except for some unnamed miners suspected of having engaged in highgrading at the mine, are eligible for employment in other mines of the company.

The names of nineteen former old Brunswick employes are listed as having been reemployed by the company in other of its mines and lists the names of three who, the company states, were offered employment, but declined.

Those named as reemployed are: Lloyd F. Atland, E. F. Anderson, George Brailey, J. E. Burns, Thomas Colvin, Luther DeLong, H. B. Greer, H. Henderson, C. L. Jackson, Burt Lints, John M. Lumpkin, Ben A. Moule, William Moule, Edward W. Olson, L. N. Popevich, Jack Radich, Joseph Waechter, Nick Wion and Ed. J. Yunk.

Those listed as having declined reemployment are: Lucien Antonowitsch, A. J. Straczinski and Bruce B. Whitney.

In support of its contention the operations of the Idaho Maryland properties are intrastate rather than interstate, it is asserted that upon the sale of its gold and silver to the United States Mint in San Francisco, or to the smelter at Selby, California, all connection of the company with its product ceases. —Sacramento Bee.

EBAUGH FREED ON PRISON CHARGE

Further testimony of neighbors of William Ebaugh and Mrs. Ray Dalama, who charged that her companion in the Mosquito creek cabin had virtually imprisoned her for three months, resulted Tuesday in a dismissal of the charges against Ebaugh. Bruises that the woman complained of, Ebaugh stated on the witness stand had resulted from hugging her too hard. Her neighbors, living near at hand, testified they had seen Mrs. Dalama abroad both alone and with Ebaugh. The attorney for Ebaugh, Harry McKee, moved for a dismissal of the charges, and District Attorney Vernon Stoll interposed no objection. Accordingly Justice of the Peace Walter Mobley freed the defendant, who had been held under $2,000 bail.

CCC BOYS AID FOREST SERVICE

The CCC boys were moved from their winter quarters near Grass Valley to the summer or Tahoe camp east of Nevada City last week. Quite a number of the boys are employed in shop work at the Tahoe National Forest headquarters plant in this city.

Lumber was taken to the Forbes Camp northeast of Auburn yesterday. CCC boys will be moved from Camp Bradley, winter quarters, to the Forbes camp, in the same district, in about two weeks.

A crew of the boys are doing maintenance work on the Gaston-Graniteville road getting it in shape for summer travel.

The ranger station at Camptonville is being improved by installation of a new electric plant. The forest service is putting up a new "look out" at state line, near Lake Tahoe.

At Downieville the Tahoe National forest is doing extensive work. Under construction at present are a rangers station, office, and warehouse. A new residence will be built eventually. The grounds about the new station have been arranged to make about a one-fourth acre park surrounded by an artistic stone wall or fence which is about two and a half feet high. It is at the south city limits of Downieville by the river.

Fred Garrison spent the last week end in Princeton attending graduation exercises of the high school there.

COMMITTEES ARE APPOINTED FOR SCOUT DRIVE

Besides their share of the money to be paid to the Tahoe Area of the scouts council in the maintenance of Camp Pahatisi this year the local scout council hopes to raise considerable money to improve the scout lodge in Pioneer park in their annual drive this year. The community house in Pioneer park has been leased by the scouts for ten years and under the terms of the lease they have agreed to expend $800 in improvements on the building within a period of six months. This period expires about August 1.

The committee for the annual drive follows: Carrol Coughlan, chairman of the advance gift committee; H. M. Leete, chairman of the business committee; Otto Schiffner and Jack Widauf, establishments; H. E. Kjorlie and W. A. Carlson, schools.

LAVA CAP BALL TEAM WALLOPED

The Lava Cap baseball team went down to defeat to the CCC boys by a 9-2 score Wednesday evening. The Lava Cap boys were handicapped due to the fact several of their best players were on other shifts in the mine.

New uniforms for the boys arrived yesterday morning. They are white with blue caps and sox. The words "Lava Cap" are on the shirt, while "L. C.' is on the caps.

The Lava Cap team will play the Idaho-Maryland team tomorrow evening on Memorial Park baseball diamond at Grass Valley.

FIRE GUARD TRAINING SCHOOL OPENS JUNE 16

Near the old Fowler mill on the Washington road the annual fire guard training school of the forest service will be held next week, June 16, 17 and 18. About sixty rangers and look out men, Supervisor DeWitt Nelson states, will attend the training school.

Guernica Massacre Condemned

(From the Scottish Rite News Bureau)

The destruction by Rebel air raids of Guernica, historic Basque city, with the consequent deaths of 800 unarmed civilians—men, women and children—has caused seventy-six religious, educational, political, civic, business and professional leaders in New York City to unite in an appeal that "all men of good will" join in an overwhelming protest. The appeal was issued as the first organized expression of representative American public opinion on the world-wide issue of war carried on by aircraft against defenseless, non-combatant men, women and children, and among its signers were seven U. S. Senators, five Representatives, two state Governors, and four one-time Cabinet members. The appeal described the destruction of Guernica as a "monstrous crime," and averred that the ruthless aerial warfare upon women and children stands outside the pale of morality and civilization.

An English publication pointed out that the Spanish insurgents, hastening, to disclaim responsibility for the tragedy, laid the blame to German army aviators. The attack upon Guernica was witnessed by a correspondent for the New York Times, who described the methods of warfare used, and stated that at first heavy bombs and grenades were dropped all over the town, which served to drive the frightened inhabitants from their dugouts and other places of hiding. While these people were running back and forth through the streets a number of fighting planes equipped with machine guns swooped down upon them and opened up a deadly fire. When the townspeople again sought refuge in cellars and underground passageways, heavy bombs, capable of making holes 25 feet deep, were rained upon the buildings, which collapsed upon the unfortunate victims.

One publication stated that the slaughtered Basques were regarded as nothing more or less than "guinea pigs" to be experimented upon by German aviators in order to test certain theories of German Air Minister Herman Goering. To support this contention reliable witnesses of the attack stated that the drive was led by German officers flying Junker planes and it was suggested that the tactics employed were those that the German Air Ministry contemplated using in the "next war." These observers pointed out that the murder of the innocent Basque non-combatants was heartless and barbarous.

The world has not by any means forgotten the manifestations of German Kultur during the World War. In those hectic days many shocking crimes were charged against the Imperial German Army. In later years, however, some people became convinced that the stories of these Teutonic atrocities were in some cases exaggerated and in other instances absolutely untrue, being nothin more or less than propaganda manufactured by the Allied Powers. However, the wanton destruction of Guernica, the needless sacrifice of human life, recalls to the mind vividly those World War allegations of German atrocities and causes the average citizen to believe that, after all, the German leopard has not materially changed its spots.

Gene Meservey of Town Talk who stepped on a nail while at work in the Empire mine Tuesday, is laid up at home for several days. The nail entered his left foot and the injury proved quite painful.

JUST WONDERIN'

I wonder who investigates
The shrewd investigators
And keeps an ever watchful eye
On rebates and rebaters.
Who tracks the sales tax to its lair
And makes the profiteer play fair?
Who is the doughty referee
Who fixes bouts for you and me?
And if men must investigate,
Why then delay until too late?

I wonder what has become of that old ounce of prevention. Why do our wily investigators defer investigative action until dire calamity chills the blood of the nation and arouses public indignation to the boiiing point.

The recent near tragedy in a bay city kindergarten seems significant. Here helpless little children suffered unnecessary shock and fright because no one had discovered that they were housed in an inflammable building with cook stoves spouting blue blazes above their curly heads.

If mere babies must be cooped up and taught airy nothings at an age when they should be running wild like other healthy young animals, let's determine to safeguard their lives during the process.

I wonder why American millionaires are so adverse to paying income taxes. Most of us would be highly delighted to perform that function—if we had the incomes.

I wonder why Lincoln Steffens failed to include man in his list of "unfinished business." Let's consider the creature man.

Before reaching the middle twenties he consumes a so-called education from A. B. to B. A. This he digests and assimilates in time to begin life at forty. Thereafter he finds it increasingly difficult to keep his teeth in, hair on, instep arched, back flat, chest convex, waist line concave, chin up, weight down, mind open and mouth shut.

Now doesn't all this prove conclusively that Homo Sapiens really does need fixing?

—A. MERRIAM CONNER.

Teacher—Now, children, since we have described what trees, flowers and plants are, who can tell me in his own words what grass it?

Small Boy—I can, Teacher. Grass is whiskers on the earth.

Dr. Slicem — Now don't worry about your wife. You'll have a different woman when she gets back from the hospital.

Chubbwitt—But what if she finds it out, Doc?

RIO VISTA ADDS TO NATURAL GAS SUPPLY OF P. G. E.

More natural gas for Northern California!

The Pacific Gas and Electric Company is about to increase its supply by tapping a new natural gas field near Rio Vista, Solano county. It has contracted for an average of ten million feet daily from this source to supplement the enormous quantity it now draws from Kettleman Hills.

Rio Vista gas—fuel of high heat content—will be distributed by the P. G. and E. in Solano, Yolo, Marin, Sonoma and Napa counties.

To this end the company will construct 58¼ miles of steel, high-pressure transmission pipelines as soon as authority is received from the Railroad Commission. The project will cost $904.000 and will be completed in about three months.

A 12-inch main, 5¾ miles long, will be laid from the Rio Vista field to a point south of Dixon and east of Fairfield and Suisun. From there a 10-inch line will evtend 26 miles to the Napa "Y" Junction on the state highway where it will connect with the existing pipeline that now brings Kettleman Hills gas across the Carquinez Bridge to the North Bay territory.

Another 10-inch line, 14½ miles long, will connect the 12-inch Rio Vista main with the 6-inch line already in sevice between Dixon and Davis. From Davis an 8-inch line will run 12 miles north to serve the recently built beet sugar refinery of the Spreckles Sugar Company, two miles north of Woodland.

The new natural gas fields is in the Montezuma Hills, west of the Sacramento River and two miles from the town of Rio Vista. The discovery well was completed on June 16, 1936, by the Amerada Petroleum Corporation, which now has six producing wells in the area and plans to drill more. The Standard Oil Co. has brought in one well nearby.

Development of the Rio Vista field and construction of the new network of mains will enable the P. G. & E. to meet steadily growing demands for natural gas, to extend service to communities not now served with "the modern fuel" and to conserve the gas of Kettleman Hills.

SKELETON EXPOSED BY EROSION AFTER 60 YEARS

CAMPTONVILLE, June 10—Some campers discovered a skeleton on the edge of Oregon Creek camp ground at Freemans Crossing Monday and notified the sheriff and coroner's office at Marysville, and on instructions from Coroner J. L. Sullivan, Judge Acton M. Cleveland had A. W. Chapman bury the same.

Nothing is known of who this might have been, from appearances, the person was a man and had one broken leg and had been buried at least for sixty years. It was buried in a grave near a ravine, and the years of erosion cut into the grave so that the skeleton became exposed. Chapman re-buried it in a five foot grave and marked the place.

RIGHT LANE FOR SLOW VEHICLES ON BRIDGE

According to information sent out by the traffic control department of the Golden Gate bridge slow vehicles must keep to the extreme right. Bridge rules draw special attention to provisions of the vehicle code prohibiting operation of any vehicle at a speed so slow as to impede reasonable movement of traffic. Bridge rules also emphasize the necessity of proper signalling.

All vehicles are prohibited from crossing the center line stripe where indicated by reflector markers.

U turns are not allowed except under the direction of a uniformed patrolman or bridge employee.

Tire changes and repairs are permitted only when authorized by a member of the California highway patrol and done in his presence.

Emergency towing service is available. Emergency telephones are installed at intervals along the roadway. When calling for help give the number of the telephone from which you call.

Stalled cars will be towed to the San Francisco toll plaza. Charge for towing a passenger car is $1.50.

KEEPER OF RECORDS PASSES

Wyoming Tribe No. 49, has received news of the death of Porter L. Bliss who passed away on May 28. Porter L. Bliss was Great Keeper of Records and Seal of the Great Council of California, a position he had held for 35 years. He often visited Nevada City and had many friends here.

BIG SEASON AT CAMP PAHATSI IS PROMISED

From the number of registrations being received by the Camp Committee for Scout Camp it looks as though Kilborn Lake will have its largest year. At the present time registrations are ahead of last year and it might be possible that facilities will have to be increased to take care of the campers or limit the number in a particular week.

Camp Pahatsi's reputation is spreading as evidenced by the applications for permission to attend the Tahoe Area Summer Camp at Kilborn Lake that have been received from Scouts of other councils in Northern California.

Early reports indicate that camp buildings suffered no damage from winter snows but that there is some damage to pipe lines which must be replaced. Week end work crews will start making repairs as soon as the road to camp is opened to the Campfire Girls whose camp will start Sunday July 11. Scouts and Cubs will follow with camp closing Sunday, August 8.

SAN FRANCISCO NURSE ARRESTED NEAR HERE

Mrs. Ann Fisher, nurse of San Francisco was arrested just outside of Nevada City by John McMahon, deputy district attorney of San Francisco and Harry Husted, San Francisco police officer Tuesday, while sitting in a car watching the prospecting operations of her husband in the creek channel. Mrs. Fisher was wanted by the San Francisco police on charges of complicity in the abortion death of Mrs. Genevoeve Arganbright on May 19. She is charged with aiding Dr. Claude C. Long in a fatal illegal operation on Mrs. Arganbright, 26, mother of a five year old boy. Dr. Long was arrested on May 22.

Boss—Al, can you love two girls at once?

Al—Yes, sir, immediately.

Judge—Have you ever been up before me?

Culprit—I don't know, yer Honor—what time do you get up?

YUBA CO. SPORTSMEN CLUB PICNIC SUNDAY

The Yuba county sportsman's club will hold a great picnic on Sunday, June 13 in the river bottom, south of the Feather river bridge at the foot of 3rd street, Marysville. It's to be an all day picnic with events going every minute. There will be small calibre rifle contests between the National Guard and other gun clubs, there will be fly casting contests and motor boat races, horseshoeing contests and every other kind of contest with prizes for the winners of each. For the ladies nail driving, rolling pin throwing and other such housewifely accomplishments will be exhibited and there will be prizes for the winners. Everybody will have a chance at catching the greased pig.

Delbert Little, brother-in-law of Oscar Odegaard of Nevada City and Harvey Eich, Yuba county treasurer, have charge of the concessions and promise not a dull moment. The committee announces no extra charge for the barbecue.

NEVA REBEKAH LODGE

Neva Rebekah lodge held a session Saturday evening at which time Mrs. Esther Tremaine, delegate from the lodge to grand lodge in Sacramento on May 10, gave her report. She especially commented on degree work exemplified as of 1857 when men gave the degree work for the women.

Mrs. Mary Northey, Mrs. May Pierce, Mrs. Phillipia Chapman and Miss Mary Hoskens of Nevada City, also visited grand lodge.

HEAVY MACHINES TO PLOW TRAIL IN FIRE FIGHTING

Heavy machinery will be used in the construction of fire lines to a considerable extent this season according to DeWitt Nelson, supervisor of the Tahoe national forest. Past experience has shown the value of tractors equipped with the angle-dozer blades in the building of fire line but lack of fast transportation for such equipment was a handicap.

The problem has been solved in Nelson's opinion by the assignment this week of a special line building outfit to Nevada City where it will be stationed during the summer for the use of the Tahoe, Plumas and Eldorado national forests. Two "35" Cletrac trailbuilders are mounted on a fifteen ton FWD semi-trailer designed so that the trailbuilders can be quickly loaded ad unloaded by the operator.

In Nelson's opinion the burned area this season will be greatly reduced by the speed with which an effective fire line can be constructed with the above outfit.

SACRAMENTO, June 10.—Probe of the Sacramento county district attorney's office into asserted irregularities and graft charges in connection with the last session of the state legislature spread out into new channels this week.

Originally aimed at charges of bribery in the assembly to secure passage of an oil bill, the inquiry brought the indictment of Gene G. Flint, Los Angeles assemblyman, who is accused of offering money to a fellow legislator.

Prosecutor Otis D. Babcock returned from Los Angeles where he questioned Mrs. Sherman Hoyt, wealthy Pasadenan, and announced he will seek indictment of Raymond Kahl, an assistant sergeant-at-arms in the assembly. Babcock said Mrs. Hoyt admitted to him she had given Kahl $300 to use his influence on legislation affecting the routing of the Arroyo Seco highway near Pasadena.

Babcock also was asked to investigate why legislation to enlarge the state racing commission from three to five members was killed in committee. Harry L. Lewis, editor of the Los Angeles Refere, a sports publication, wrote that a $150,000 slush fund was raised to oppose the bill.

Hunt for a firebug was under way in six northern California counties this week after set fires had destroyed three fruit packing plants at Newcastle, ruined the interior of the Congregational church at Loomis, both in Placer county, and razed a Galt lumber yard and school. A wharf and cannery warehouse near Isleton, a lumber yard in Rio Vista and a feed store and auto wrecking yard in North Sacramento are among the fires since May 30. The state arson board will be called to make an investigation. The week's fires sent the number of blazes attributed to arsonists in this district since last December to twenty. Total damage has been estimated at more than $1,000,000.

A surplus of $18,000 000 in the treasury of the state of California by June 30, 1937 has been predicted by State Controller Harry Riley if Governor Merriam approves no special legislative appropriations aside from the $7,000,000 in the Jones bill for state hospital construction The items included in this appropriation bill replace items removved from the budget. Collection of $63,332 in April royalties from trespassers of the state owned Huntington Beach tideland oil field was reported to Finance Director A. E. Stockberger by the state division of lands.

California's 83 year old state fair is to become an annual California "world's fair" if the new plans of the board of directors materialize. John E. Pickett, editor of the Pacific Rural Press, declared: "California is in a position to produce an annual world's show at the state fair because of the state's matchless climate and soil. The state fair and its new management has a wonderful opportunity."

An entirely new entertainment program is being scheduled. One feature will be a current hit from the New York Hippodrome, Lottie Mayer's Disappearing Water Ballet which is the most novel aquatic show of its kind. It will be used exclusively at the evening show before the grandstand and as the background for a brilliant array of Hollywood talent now being selected.

The Vacaville cutoff will be opened to traffic on June 15 according to an announcement by the state division of highways. A fraction of a mile in distance is cut off, several curves are eliminated and the driving time slightly reduced. June 21 to 28 has been declared "Public Recreation Week" by Governor Merriam who said "it is desirable" that all agencies respond to the challenge of the recreational problem at a time when $1,500,000 children are being released for vacation.

MANY TEACHERS PAY CUTS NOT YET RESTORED

SAN FRANCISCO, June 11. — In spite of the recent passage of the $1320 minimum wage law for school teachers the base rate of teacher salaries in California is still considerably below the average of wages not only in many industrial occupations but also below the general run of salaries in the lower brackets of state civil service.

Significant facts concerning the pay of school teachers compared with other California groups have been disclosed in a state wide survey conducted by the California Teachers Association and just made public by Roy W. Cloud, state executive secretary of the organization.

The survey was prepared by F. L. Thurston, of Los Angeles, secretary and W. Harold Kingsley, research expert, of the southern section of the teachers association.

Among the facts disclosed by the report are that in numerous communities over the state teacher's pay cuts during the depression are still in effect despite the fact that the cost of living has been steadily rising and that wages in most industries have reached the predepression level of 1929.

"In some districts," says the report, "partial restoration of automatic increases as a reward for professional improvement were effected. But in the majority of districts, employing by far the great majority of teachers, restoration of salary cuts made during the depression and resumption of salary schedules have not been made.

"Teachers in these districts are not only receiving less than they did before their pay was cut, but have been additionally penalized by the increased cost of living."

TENNIS CHAMPS CROWNED

The spring girls' tennis tournament came to an end this week and resulted in the same people winning as in the fall tournaments. Ruth Godfrey was named winner of the girls' singles after defeating Vella Flindt, 6-0. Margaret Stevens, and Ruth Curnow became girls' doubles champions when they defeated Mary Lou Draper and Alice Graham 5-4.

The fall winners were the same as above mentioned. The following girls participated in the tournament, Girls singles, Ruth Godfrey, Dot Hoff, Margaret Stevens, Jane Bennett, Betsy Bennett, Jean Martz, Alice Graham, Catherine Stephens, Laurel Biggs, Ruth Curnow, Mary Lou Draper, Adele Joerschke, Vella Flindt, Georgia Glennon, Margaret Gibbs, and Madge Pianezzi. Girls doubles, Margaret Gibbs and Jane Bennet, Jean Martz and Ruth Godfrey, Betsy Bennett and Vella Flindt, Ruth Curnow and Margaret Stevens, Amy Lou McCraney and Madge Pianezzi, Adele Joerschke and Catherine Stephens. Mary Lou Draper and Alice Graham, Georgia Graham and Virginia Carney and Margaret Odegaarde and Evelyn Sibley. Miss Petersen has been in charge of the tournament.

STUDENT BODY ELECTIONS

Clifford Hoff, popular athletic, will take over the reins of student body president next year. This was determined by the results of the elections this week.

In the race for student body president, Hoff defeated Melvin Clark, junior class president, 79 to 46.

The race for student body vice-president was not so close but was well 'split up." Alice Jean Graham, student body secretary, defeated Lucy Proctor, C. S. F. and Honor student, 86 to 38.

The closest race of this election and the closest in many a year at the high school was for that of secretary. Phil Angove defeated David McCraney 65 to 60. Madge Pianezzi won the office of treasurer by the total number of 117 votes.

John Harding, retiring student body president, has always been a leader in his class, student body and the organizations. In his junior year he was junior class president. Ruth Curnow, vice president, has faithfully filled the office for two terms, which is the first time a student has done this. The office of treasurer this year has been filled by Fred Garrison, who will also be missed.

The old officers will hand over their gavels and books to the new officers sometime this week.

CAMPTONVILLE NOW HAS "TALKIES" EVERY WEEK

CAMPTONVILLE, June 10.—For the first time in the history of the town, talking motion pictures were displayed at the auditorium of the local Masonic hall last Tuesday, and will be given every Tuesday night by the educational department of the Civilian Conservation Corps. Late films are being shown and the equipment, that of a portable nature, works very well in the local hall and this is the first talking picture ever to be shown here.

CAMPTONVILLE, June 10.—The Womens Club of Camptonville held a surprise meeting at the home of Mrs. J. W. Morehead Thursday evening, the members dropping in unannounced, conducting the regular business meeting at which time various matters were taken up, including the continuation of the public card parties for the benefit of the club,

After the business was over refreshments were served, being furnished by Mrs. Constance Pfiffer, Misses Lydia O. Groves and Lesta H. Joubert. Mrs. Henry Clay and Mrs. Henry Meyers were visitors at this meeting.

It was reported Tuesday that a new saw mill is to be erected on J. A. Cassano property by Messrs. F. Fowler, Bill Burns and J. W. Morehead.

CAMPTONVILLE, June 10.—Earl Cooley and party of friends of Marysville were in this section Sunday on a fishing trip.

Mrs. Louise Knickrem and son Ray Knickrem left Sunday for Mohawk to spend the summer months.

The many friends of Lieut. and Mrs. W. R. Davis, owners of the Gold Pan Lodge, were pleased to learn of the birth of a daughter to them, Wilma Holly, born May 29, at the Wilcox Memorial Hospital at Portland, Oregon, weighing seven pounds, 9 ounces.

CAMPTONVILLE, June 11.—William Haines recently purchased the old Stephens ranch property at Galena Hill. This has been known as the Wisler place.

Misses Dorothy Hays and Marion Belyea returned Monday from Marysville after attending the stampede.

Henry Rothe passed through Monday enroute to Quincy where he has been promoted to enforcement officer of the forest service for the Plumas forest. His many friends here congratulate him on his promotion.

Mr. and Mrs. Jack Wilkins and son of Napa spent the week end here. He formerly lived at Garden Valley.

Mr. and Mrs. George Rogers and family of Sacramento spent the week end here visiting relatives.

Frank Massa returned to Trinity county Monday after spending the week end at his home at Oak Valley.

Mrs. Victor Dornberger, Miss Ida Dornberger and her mother, all of San Jose were the week end guests of Miss Lesta H. Joubert and Miss Susette Dornberger at their home on Main street.

A fire call came in Sunday night at 8:30 reporting a fire north of Indian Creek which call was responded to by assistant ranger Ralph Gleason and a number of local CCC boys.

TRUCK JAMS MAN'S ARM

Antone Giani and sons, Pete and Virgil, were delivering a large truck load of gravel to the garage adjoining Gene's Cafe on lower Broad street at noon today when Virgil suffered a severely crushed left arm.

He was giving directions to his brother in guiding the truck backward in order to miss two porch pillars, resting his arm on a garage support and was so interested he forgot to remove it. Gaini did not lose his head when the heavy truck jammed his arm and called to his brother to drive forward and release him. It is stated upon examination he suffered no broken bones but it will be very painful for several days.

Thru the Knot Hole

A Glimpse of Building Activity

Vol. 1. JUNE 11, 1937. No. 42.

No matter how old your home is—if it is worthwhile living in, it is worthwhile improving. A few dollars spent wisely will pay you dividends in added comfort and perhaps increase the resale value of your home.

No matter how new your home is, there are certain improvements which are well worth while. A set of book cases, a basement playroom, shutters a trellis, or benches in the back yard.

Make your house a better HOME by adding as many of these conveniences as possible.

KITCHENS are getting more popular than ever. With plenty of cabinets, the plumbing and vegetables behind closed doors, with a shiny, easy to clean sink, there is really no more attractive room in the house. Let us show you what a few dollars buys in new cabinets.

NO HOME can be considered up-to-date without a modern Bathroom. And with the many new materials now available, such modernization may be done inexpensively. For walls we suggest Bestile which can be furnished in a number of beautiful colors. Won't warp or buckle. Come in and let us show you samples. Looks like genuine tile.

DON'T WAIT until your roof leaks before you begin to think about repairs. A leak can cost hundreds of dollars while a few dollars spent now may save you a lot of inconvenience and expense.

MURPHY PAINTS — Enamels, exterior, or interior, flat wall finish, stains and varnishes will greatly improve the appearance of your home. Sold on the A-LA-CARTE plan—and made by one of the oldest paint companies in America.

Improbable

"Why we have a decorator here who painted a cobweb so real that a man spent a full hour trying to sweep it down."

"Sorry, old man, but I don't believe it."

"Why, not, painters have been known to do such things."

"Yes, but maids haven't."
